National recognition for "Power of Nine" literacy program

3 messages

[contact information redacted for public copy]

Congratulations on the "Power of Nine" literacy program's recognition as the first highlight in the inaugural edition of the "Stronger Together" national NPHC newsletter. Please share this item with other D9 members (especially Edith Lewis, who is pictured.)

Your initiative and coordination, supported by the numerous D9 readers, stood out nationwide among many outstanding community-service projects. Thank you for your leadership.

In the year to come, this visibility and, more important, our collective impact on young people should inspire us to even greater efforts of Cooperative Action.
